

13 September 2023

Dear Year 2 Parent/Carer

In Science we will be focusing on **The Circle of Life**. As part of this learning we have organised an exciting visit from The Yorkshire Owl Experience. This will entail a workshop working with an owl expert to find out about owls, their habitats, their food sources and their nests and eggs.

This workshop will take place in school on **Wednesday 11 October 2023**. Children will get to meet first hand a few different owls and will be able to feel their feathers, see them fly and hold them. The session will be very interactive with the opportunity to have their photo taken with the owls.

This is an important part of Science during Autumn Term as it will support our learning on how animals adapt to suit different habitats, how they reproduce and the food chain of animals.

**Should your child have any allergies related to feathers etc., and therefore cannot have contact during the workshop, please email the school office via School Gateway so appropriate arrangements can be put in place.**

We are asking for a voluntary contribution of **£3.50 per child** to support this event. Please pay your contribution on School Gateway no later than **Friday 29 September 2023**. Unfortunately, if we do not receive enough contributions towards this the school reserve the right to cancel the event.

We thank you for your continued support.

Mrs Burgess
