

Due to the continuing COVID 19 measures in place by the UK government, your child's class teacher will be providing work for your child in the coming weeks via our school blog. This will include a number of online learning resources/portals that have become free to parents/carers in recent weeks.

If you are unable to carry out any of the online tasks then alternatives will be provided that your child can complete in their home school book that already has suggestions for activities to do at home. Please use the grid activities below rather than these!

Each Monday (by 9.30a.m), the class teacher will upload the following grid to the blog outlining the activities they recommend for your child and where to find them. White Rose Maths Hub, the scheme of learning we use to support the teaching of maths in school, are also providing daily video tutorials/lessons and corresponding activities that we will be directing you to.

Which vegetables are on your list?
Topic based activities	This week think about vegetables watch 'Oliver's Vegetables' and talk about the vegetables you like and dislike. https://www.youtube.com/watch?v=2yvllKqyVUc Make a picture diary of all the fruit and vegetables you eat in one day.	Eat the rainbow How many different coloured fruit and vegetables do you eat? Can you name a fruit or vegetable for each colour of the rainbow? Which ones are you missing? Try a new fruit or vegetable and talk about the differences, for example the different sizes, shapes, textures, colours and flavours of the food. Talk about the foods in Oliver's grandad's garden and how they all looked and tasted different.	Talking Together Your task is to sort different foods into healthy and not healthy. We are talking about food and drink that you shouldn't have ALL the time, foods you might have as a treat. Can you create a picture of a healthy lunch box/ plate of food and unhealthy one? Have a look at the book 'vegetable glue' to see what happens when you don't eat your healthy vegetables!	Draw or paint pictures of fruit that grows on a tree and vegetables that grow under the ground. How many do you know?
